

Subpart I—Procedures for Implementation of the National Environmental Policy Act of 1969

AUTHORITY: 15 U.S.C. 46(g), 42 U.S.C. 4321 *et seq.*

SOURCE: 47 FR 3096, Jan. 22, 1982, unless otherwise noted.

§ 1.81 Authority and incorporation of CEQ Regulations.

This subpart is issued pursuant to 102(2) of the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*). Pursuant to Executive Order 11514 (March 5, 1970, as amended by Executive Order 11991, May 24, 1977) and the Environmental Quality Improvement Act of 1980, as amended (42 U.S.C. 4371 *et seq.*) the Council on Environmental Quality (CEQ) has issued comprehensive regulations for implementing the procedural provisions of NEPA (40 CFR parts 1500 through 1508) ("CEQ Regulations"). Although it is the Commission's position that these regulations are not binding on it, the Commission's policy is to comply fully with the CEQ Regulations unless it determines in a particular instance or for a category of actions that compliance would not be consistent with the requirements of law. With this caveat, the Commission incorporates into this subpart the CEQ Regulations. The following are supplementary definitions and procedures to be applied in conjunction with the CEQ Regulations.

[47 FR 3096, Jan. 22, 1982, as amended at 50 FR 53304, Dec. 31, 1985]

§ 1.82 Declaration of policy.

(a) Except for actions which are not subject to the requirements of section 102(2)(C) of NEPA, no Commission proposal for a major action significantly affecting the quality of the human environment will be instituted unless an environmental impact statement has been prepared for consideration in the decisionmaking. All relevant environmental documents, comments, and responses as provided in this subpart shall accompany such proposal through all review processes. "Major actions, significantly affecting the quality of the human environment" referred to in

this subpart "do not include bringing judicial or administrative civil or criminal enforcement actions" CEQ Regulation (40 CFR 1508.18(a)). In the event that the Commission in an administrative enforcement proceeding actively contemplates the adoption of standards or a form of relief which it determines may have a significant effect on the environment, the Commission will, when consistent with the requirements of law, provide for the preparation of an environmental assessment or an environmental impact statement or such other action as will permit the Commission to assess alternatives with a view toward avoiding or minimizing any adverse effect upon the environment.

(b) No Commission proposal for legislation significantly affecting the quality of the human environment and concerning a subject matter in which the Commission has primary responsibility will be submitted to Congress without an accompanying environmental impact statement.

(c) When the Commission finds that emergency action is necessary and an environmental impact statement cannot be prepared in conformance with the CEQ Regulations, the Commission will consult with CEQ about alternative arrangements in accordance with CEQ Regulation (40 CFR 1506.11).

§ 1.83 Whether to commence the process for an environmental impact statement.

(a) The Bureau responsible for submitting a proposed rule, guide, or proposal for legislation to the Commission for agency action shall, after consultation with the Office of the General Counsel, initially determine whether or not the proposal is one which requires an environmental impact statement. Except for matters where the environmental effects, if any, would appear to be either (1) clearly significant and therefore the decision is made to prepare an environmental impact statement, or (2) so uncertain that environmental analysis would be based on speculation, the Bureau should normally prepare an "environmental assessment" CEQ Regulation (40 CFR

§ 1.84

16 CFR Ch. I (1–1–07 Edition)

1508.9) for purposes of providing sufficient evidence and analysis for determining whether to prepare an environmental impact statement or a finding of no significant impact. The Bureau should involve environmental agencies to the extent practicable in preparing an assessment. An environmental assessment shall be made available to the public when the proposed action is made public along with any ensuing environmental impact statement or finding of no significant impact.

(b) If the Bureau determines that the proposal is one which requires an environmental impact statement, it shall commence the “scoping process” CEQ Regulation (40 CFR 1501.7) except that the impact statement which is part of a proposal for legislation need not go through a scoping process but shall conform to CEQ Regulation (40 CFR 1506.8). As soon as practicable after its decision to prepare an environmental impact statement and before the scoping process, the Bureau shall publish a notice of intent as provided in CEQ Regulations (40 CFR 1501.7 and 1508.22).

(c) If, on the basis of an environmental assessment, the determination is made not to prepare a statement, a finding of “no significant impact” shall be made in accordance with CEQ Regulation (40 CFR 1508.3) and shall be made available to the public as specified in CEQ Regulation (40 CFR 1506.6).

§ 1.84 Draft environmental impact statements: Availability and comment.

Except for proposals for legislation, environmental impact statements shall be prepared in two stages: Draft statement and final statement.

(a) *Proposed rules or guides.* (1) An environmental impact statement, if deemed necessary, shall be in draft form at the time a proposed rule or guide is published in the FEDERAL REGISTER and shall accompany the proposal throughout the decisionmaking process.

(2) The major decision points with respect to rules and guides are:

(i) Preliminary formulation of a staff proposal;

(ii) The time the proposal is initially published in the FEDERAL REGISTER as a Commission proposal;

(iii) Presiding officer’s report (in trade regulation rule proceedings);

(iv) Submission to the Commission of the staff report or recommendation for final action on the proposed guide or rule;

(v) Final decision by the Commission. The decision on whether or not to prepare an environmental impact statement should occur at point (a)(2)(i) of this section. The publication of any draft impact statement should occur at point (a)(2)(ii) of this section. The publication of the final environmental impact statement should occur at point (a)(2)(iv) of this section.

(b) *Legislative proposals.* In legislative matters, a legislative environmental impact statement shall be prepared in accordance with CEQ Regulation (40 CFR 1506.8).

(c) In rule or guide proceedings the draft environmental impact statement shall be prepared in accordance with CEQ Regulation (40 CFR 1502.9) and shall be placed in the public record to which it pertains; in legislative matters, the legislative impact statement shall be placed in a public record to be established, containing the legislative report to which it pertains; these will be available to the public through the Office of the Secretary and will be published in full with the appropriate proposed rule, guide, or legislative report; such statements shall also be filed with the Environmental Protection Agency’s (EPA) Office of Environmental Review (CEQ Regulation (40 CFR 1506.9)) for listing in the weekly FEDERAL REGISTER Notice of draft environmental impact statements, and shall be circulated, in accordance with CEQ Regulations (40 CFR 1502.19, 1506.6) to appropriate federal, state and local agencies.

(d) Forty-five (45) days will be allowed for comment on the draft environmental impact statement, calculated from the date of publication in the EPA’s weekly FEDERAL REGISTER list of draft environmental impact statements. The Commission may in its discretion grant such longer period as the complexity of the issues may warrant.
